Email: mdtanvirislamrakib7@gmail.com | Phone: +880 1880598006 | Address: Gazipur, Bangladesh

Career Objective:

I am a passionate and motivated MERN stack developer with a strong foundation in building responsive and dynamic web applications. My goal is to grow as a full-stack developer by working on real-world projects and continuously learning new technologies. I am eager to contribute to innovative teams and create impactful digital solutions.

Skills:

- **Frontend:** HTML, CSS, JavaScript, Tailwind CSS, React.js, Axios
- **Backend:** Node.js, Express.js, MongoDB, Firebase
- **Tools:** Git, Github, NPM, JWT Authentication, REST API

Projects:

HistoryVault: [Live Link](#) || [Github Client](#) || [Github Server](#)

HistoryVault is a full-stack MERN app where users can explore, like, and add historical artifacts. It includes secure login, smooth animations, and full CRUD features for managing artifacts.

Technology: React, Express.js, MongoDB, JWT, Firebase

Features:

- **JWT Auth & Protected Routes:** Firebase login with JWT secures private pages.
- **Full CRUD for Artifacts:** Users can manage their own artifacts with confirmation prompts.
- **Real-Time Like System:** Live like/dislike toggles with instant UI and database updates.

TaskHub: [Live Link](#) || [Github Client](#) || [Github Server](#)

Freelance Task Marketplace is a MERN stack app that connects clients and freelancers for task-based jobs. It includes secure login, role-based access, task management, and real-time bidding features..

Technology: React, Express.js, MongoDB, Firebase

Features:

- **Task Bidding System:** Freelancers can bid on tasks; owners see total bids per task.
- **Protected Routes:** Authenticated users can post/edit tasks; routes secured via Firebase Auth.
- **Dynamic Home Page:** Shows top 6 urgent tasks, responsive design with slider and extra sections.
